Time	Topic
8:45 – 9:15	Registration and Coffee
9:15 – 9:25	Welcome Speech <i>By Carine Weiss, MMS/ aidsfocus.ch</i>
9:25 – 9:55	UNAIDS Strategy 90-90-90: An ambitious treatment target to end AIDS by 2030 – where do we stand? <i>By Badara Samb, UNAIDS</i>
9:55 – 10:25	90-90-90 - Yes, but how? Implementation strategies for resource-limited high-prevalence settings <i>By Niklaus Labhardt, Swiss TPH and SolidarMed</i>
10:25 – 10:55	Leading by example: Faith on the Fast Track? <i>By Reverend Phumzile Mabizela, INERELA+ positive faith in action, South Africa</i>
10:55 – 11:15	Coffee Break
11:15 – 11:45	Test and treat: Great expectations but challenges everywhere <i>by Gilles Wandeler, Inselspital Bern, Switzerland</i>
11:45 – 12:15	Leaving no one behind: Working with key populations to reach the first 90 in Geneva (Input in French) <i>By Heide Jimenez Dávila, Groupe sida Genève, Suisse</i>
12:15 – 13:30	Lunch
13:30 – 14:15	Panel: Are we on track? Are the 90-90-90 targets set for 2020 within reach? <i>With Susanne Amsler (SDC), Niklaus Labhardt (SolidarMed / Swiss TPH), Gilles Wandeler (Inselspital Bern), Heide Jimenez Dávila (Groupe sida Genève), Phumzile Mabizela (INERELA+)</i>
14:15 – 15:30	WORLD CAFÉ
15:30 – 16:00	Presentation of the group work
16:00 – 16:15	Closing remarks
16:15	APERÓ ☺

HIV Test-and-Treat: Are the 90 - 90 - 90 targets set for 2020 within reach ?

At this year's MMS/aidsfocus.ch conference we will discuss best practices, challenges and lessons learnt of the “test and treat” strategy and whether we are on the fast-track to reach the “90–90–90” targets as set out by UNAIDS.

Get Tested! Know your HIV Status! Slogans we hear a lot from the concept “90-90-90” introduced by UNAIDS in 2014. It means 90% of people who are HIV infected will be diagnosed, 90% of people who are diagnosed will be on antiretroviral treatment and 90% of those who receive antiretroviral will be virally suppressed by 2020. If we reach that goal the end of AIDS by 2030 is within reach.

The concept 90-90-90 is intended to galvanise national and global action to control HIV and end the AIDS epidemic by 2030. One crucial part of this plan is bringing HIV treatment to all who need it.

Three years remain until 2020 – are we on track? Where are the bottlenecks in reaching the 90-90-90 target for testing, treatment and viral suppression? Are we leaving any one behind? How do we deal with discrimination and stigmatisation as a major barrier for testing?

The conference is jointly organised and financially supported by Aids-Hilfe Schweiz, Aids Hilfe Bern and Medicus Mundi Switzerland. The conference is part of a long-term cooperation agreement with the Swiss Agency for Development and Cooperation (SDC).
